

Red Diamond Days

Hi. My name is Joshua Jank. At 19, I entered Hospice Care (August 2013) due to a liver/lung disease complicated by Sickle Cell Anemia. I began giving away "Red Diamonds" to people I know & people I meet. Now others are helping me hand them out. I want to give away 100,000. This one is for you.

- ◆ This little gem is **Red** because love matters- love makes a difference.
- ◆ This little gem is a **Diamond** because God does amazing things under heat and pressure. Sometimes He does His best work when life is the hardest.

Don't forget ~ Pass it on
